

CASE STUDY

The Green Solution. Denver, Colorado

The Green Solution is a Colorado-based, family-owned business, a leader in the Cannabis industry providing quality products at a competitive value.

GreenLight was contracted to verify and confirm accuracy of The Green Solutions utility bills, as well as to identify other areas of potential savings across their portfolio. The experienced **GreenLight** staff, utilized their engineering division and knowledge of the Colorado State's complex structures of rates, tariffs, riders and laws to identify savings, billing errors and inconsistencies.

GreenLight secured gas and electric refunds and savings for The Green Solution, in the significant amount of \$144,122.77. Due to **GreenLight's** comprehensive audit, The Green Solution will continue to benefit considerable ongoing savings on their future bills.

"Working with GreenLight was a smooth and pleasurable experience for us. We are very appreciative for the significant savings that they have secured for us."

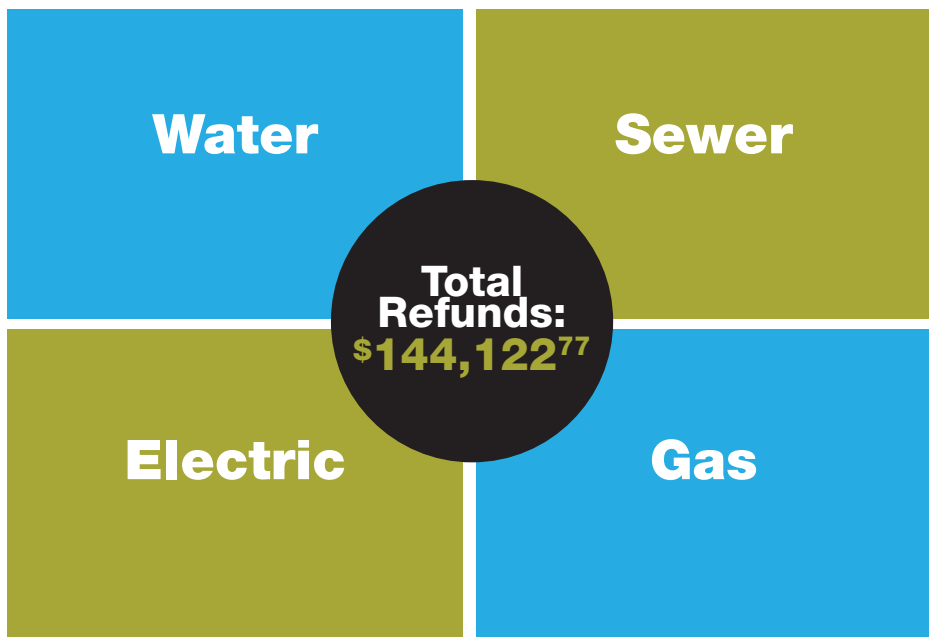

*-Kyle Speidell
CO-CEO*
